DETAILED ACTION

Response to Amendment

1. Applicant's arguments regarding the drawings and claims 1-66 have been fully considered but they are not persuasive.

Applicant's amendment to claims 1, 7, 13, 19 merely changed "maintaining an index" into "facilitating maintenance of an index" which does not require the method to actually perform any operation on the index. Furthermore, the non-root segments merely appear in the preamble and do not seem to play any role in the way the method performs.

Applicant cited the specification as support for the claimed features. However, the limitations cited are not reflected in the claim language.

For all the reasons stated above, rejection to all claims under 35 U.S.C. 112, second paragraph is maintained.

Applicants pointed to Figures 5, 6, 8, 9 as support for the claimed invention. However, those Figures merely show a single root segment and a secondary index, not the claimed root segments stored in fixed contiguous locations, the correction of an index of data in a reorganization process, the operations before and after reorganization. Therefore, objection to the drawings is maintained.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-66 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention because:

- claims 1, 7, 13, 19 merely recite an intended purpose of facilitating the maintenance of an index. However, the index merely appears in the preamble and does not seem to play any role in the way the method performs.
- Furthermore, it is not clear how data reorganization is performed while each root segment is being retained in its storage location. Note the claims 22, 26, 31, 37 do not seem to correspond to what is shown in Figures 1B-22.

The art rejection of claims 1-66 is not being applied because the limitations cannot be ascertained.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the root segments stored in fixed contiguous locations, the correction of an index of data in a reorganization process, the operations before and after reorganization must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the

appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
